Lynn Anderson, Aberdeen City Council

“I am an Early Years Practitioner who has been using Early Talk Boost with a small number of my class. We have seen amazing results with our children who have taken part and think that Early Talk Boost is a fabulous resource. My team and parents have seen results in their children and the children taking part adore Tizzy. The keyworkers enjoy getting involved by completing the online trackers and are amazed by the results when they take the second tracker. One thing we have adapted to suit our setting is **on week 9 when we invite the parents in, we call it Tizzy's graduation ceremony and the children receive a small certificate from Tizzy which both the children and parents love.** My setting loves Early Talk Boost and how it supports children.”
